# PROFIBUS

## 'One for all' EXPO

### Technology Forum & Exhibition

16 Sept 09 The Brisbane Convention & Exhibition Centre, South Bank Admission: FREE

# Invitation

**Profibus 'One for all' EXPO • Wednesday 16<sup>th</sup> September 2009 • Commencing 9.30am**

The Brisbane Convention & Exhibition Centre, Cnr Merivale & Glenelg Streets, South Bank (Brisbane) 07 3308 3000

The PROFIBUS Association of Australia (PAA) is delighted to announce the PROFIBUS 'One for all' Technology Forum and Exhibition, to be held at The Brisbane Convention & Exhibition Centre, South Bank on the 16 September 2009.

This important event on the PAA calendar co-incides with the 20 year anniversary of PROFIBUS technology and is designed to be an informative and interactive information exchange between users, engineers, product vendors and industry experts. There will be no entry fee!

PROFIBUS is clearly the world's market leader in Fieldbus technology with over 25 million nodes installed in manufacturing and process plants worldwide. At the core of this success story is the PROFIBUS 'One for all' design philosophy which ensures its suitability across all industries and applications.

This event will provide visitors with an opportunity to participate in the Technology Forum and mix casually with PROFIBUS experts and representatives from the major vendors.

Whether you are a Design Engineer, Process Engineer, Technician or Operator of a plant that uses, or intends to use, PROFIBUS, this event will help you find out more about the technology and identify ways to optimise your plant.

**Technology Forum** – Mezzanine Level (M5&6) Lecture Room  
Meet face to face with industry experts who are at the cutting edge of the PROFIBUS technology revolution. Hear their views on the issues and major developments now shaping the fieldbus evolution. This Forum is your opportunity to exchange views with these experts on specific topics of interest that will help you get the most from your technology.

**Technology Fair** – Mezzanine Level (M7&8) Exhibition Room  
Leading PAA members and other vendors will be displaying their latest technologies in an interactive environment, demonstrating the power of PROFIBUS at all levels of the plant.

From drives, instrumentation, PLC, DCS, motor starters, sensors etc, vendors will demonstrate how PROFIBUS provides users with a common communication technology for all requirements.

#### Timetable:

09.30am – 10.00am	Morning Tea	12.05am – 12.35pm	PROFIBUS PA Engineering and Installation (Arash Louie)
10.00am – 10.30am	PROFIBUS overview – 'One for all' (John Immelman)	12.35pm – 13.00pm	Lunch
10.35am – 11.05am	PROFISAFE - Certified safety comms to protect you and your Plant (John Skinner)	13.00pm – 13.30pm	User experience – Wang Components presents 'Efficiency improvements using PROFIBUS' (Allan Brady).
11.10am – 11.30am	Mid-morning break	13.35pm – 14.05pm	Next generation diagnostic Tools (Grant Weyman) - PROFIBUS Competence Centre
